Washington, DC 20036

**NOTICE REGARDING AVAILABILITY OF EXPEDITED
REVIEW FOR CLAIMS ALLEGING EXPOSURE TO UNIBESTOS
DURING THE PERIOD DECEMBER 31, 1972- DECEMBER 31, 1982**

The Pittsburgh Corning Corporation Asbestos Personal Injury Trust Distribution Procedures were amended, after consultation with, and with the consent of, the TAC¹ and FCR², (a) to remove the requirement that claimants whose alleged exposure to Unibestos occurred only after December 31, 1972 submit their claims for Individual Review and (b) to change the December 31, 1972 cut-off date for Unibestos exposure for Expedited Review claims to December 31, 1982.

As a result of these changes, claimants with alleged exposure to Unibestos during the period July 1, 1962 – December 31, 1982 may elect Expedited Review for their claims if the claims are otherwise eligible for Expedited Review.

¹ Capitalized terms not defined herein shall have the meaning ascribed to them in the Pittsburgh Corning Corporation Asbestos PI Trust Agreement and the Trust Distribution Procedures.

² Pursuant to Sections 2.2(f)(xii), 5.7, and 6.6 of the Trust Agreement.
